

WOODLAND BURIAL

Increasing awareness of the pollution associated with cremation and the unsustainability of conventional cemeteries has resulted in many people choosing the 'green' option of Woodland Burial. For each grave a tree of your choice is planted. In time the Woodland Burial area will become a valuable habitat for wildlife. A mature oak tree provides a home for over 300 organisms, including insects, birds, and lichens as well as filtering pollution from the air and water. What better memorial for future generations to inherit?

Mowthorpe Garden of Rest lies on an elevated site in the Howardian Hills Area of Outstanding Natural Beauty, affording panoramic views over most of the County of North Yorkshire. The burial ground itself nestles between the existing parish cemetery and an established woodland, to which visitors have access.

Mowthorpe Garden of Rest is part of the 250-acre Southwood Farm at Terrington where the Goodwill family has lived since before 1850.

At long last there is an alternative to council-run cemeteries where expenditure often takes second place to other priorities. We do not spend all of this year's income on maintenance of old graves but invest our shareholders' fund to provide continuing high standards in the future. Families, as shareholders, continue to have a stake in the cemetery.

Features no other cemetery in the area can offer:

- ❖ Burial rights in perpetuity – we will never re-use graves.
- ❖ Families hold shares in the Company and can attend the Annual General Meeting.
- ❖ There are no hidden extra charges, for example, to erect a headstone.
- ❖ Pre-payment to fix price – see separate price list.
- ❖ Weekend and evening interments if required.

Services we offer:

1. Woodland Burial – See over.
2. Traditional Burial – This area is managed conventionally, as lawns before being eventually planted with trees.
3. Burial of Ashes.
4. Scattering of Ashes.

We are always pleased to discuss any special needs and will arrange burials both through a Funeral Director or directly.
